IPC

TECHNOLITE SYSTEM.

WHY.

A complete system for window and surface cleaning.

HOW.

Ergonomic Design: soft-touch grip made of hard-plastic and rubber.

Safety: The whole family is equipped with a hole for the connection of the safety ropes (belt and wrist connection) and of the telescopic poles.

WHERE.

All window, mirrors, metal and all other vertical and horizontal surfaces.

PULEX™

membro di

IPC

AVAILABLE A WIDE RANGE OF DIMENSIONS:

- ❖ Window squeegee: 25 cm to 55 cm
- ❖ Window washer & Technoduo: 25 cm to 45 cm
- ❖ Scraper: 205x110x35 cm

THE HANDLE IS THE CORE OF THE SYSTEM.

SUSTAINABILITY.

PULEX is working towards sustainability: after Black Is Green, now Colour Is Green: 100% recycled plastic

ERGONOMIC.

Ergonomics means everything when the operator is involved.

SAFETY.

The Safety of the operator as well as the safety of the people around him.

TECHNOLITE FAMILY

WINDOW WASHER REPLACEMENTS

1

MICROTIGER REPLACEMENT SLEEVE.

- ❖ Polyester microfiber (65%) and polyamide (35%)
- ❖ Strips in polyester, hook and loop fasteners in nylon.
- ❖ Lateral abrasive pad in nylon and polyester

2

MICROFIBER REPLACEMENT SLEEVE.

- ❖ Microfiber in polyester (100%)
- ❖ Strip in polyester, rubber band in polyester, buttons in polished brass.

3

FT 22 REPLACEMENT SLEEVE.

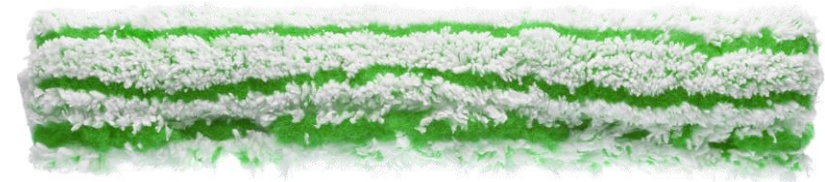

The FT22 fabric has a different honeycomb structure compared to the standard fabric. It guarantees an high absorbing power and breathability of the fibers and enables a better adherence on the glass and a longer life.

4

FT 22 REPLACEMENT SLEEVE WITH ABRASIVE STRIP.

Window washer in polyester and acrylic with the abrasive pad in case of difficult cleaning, persistent dirt. It's aggressive on the removal of stubborn dirt without damaging the glass.
